Meeting of Glass Manufacturers.

A very quiet meeting of glass manufacturers was held in this city on Tuesday. The meeting was called to take into consideration the proposed reduction of wages, as reported from Pittsburgh, and all the manufactories in this district were represented except four. No definite action was taken of importance, but the time of the meeting was taken up principally in the discussion of a project that would give the manufacturers in this district the same more for the same wages that are paid in Pittsburgh. In Pittsburgh the workmen are paid by the piece, and in this vicinity they are paid by the turn or week.—The proposition discussed on Tuesday was to change the system of paying without affecting the present wages materially. No definite result was reached.

The loss, principally from water, was about \$500, with no insurance.

Ruln Wrought in the Forest.
How depressing it is to see acres of trees cut down in the midst of a noble forest. How taddening it is also to see that thin spot in the midst of your otherwise abundant bair. Stop it at once by the use of Parker's Hair Baisam. For actual efficiency this famoug article stands at the head of its class. Elegant for the toilet, delicious in odr; and restores the original color to gray or faded hair. Goonomical, as a slight, occasional application keeps the hair and scalp in perfect order.
